

The Perfect Pocket Thermometer

CheckTemp4 *Ideal for any food application*

\$64.00

The newest addition to the Hanna Checktemp™ line, the **Checktemp4** features a folding probe. Extend the probe and the instrument turns on, checks its' calibration and flashes any deviation before reading any temperature values. Close the probe and it turns itself off. It takes a standard AA battery, and is accurate to +/- 1 degree between **-58to428°F**.

Economy Digital Thermometer

ChecktempF

\$30.00

Checktemp is **extremely accurate** and meets the accuracy of instrument requirements of the FDA Food Code. Another key feature is the built-in calibration check switch inside the rear battery compartment. A flip of the switch enables the user to verify the instruments accuracy. **Checktemp** is a quick response, all-in-one unit that combines a NTC thermistor penetration probe and a meter. **-58to302°F**

Contact/NonContact Combination Thermometer

T- 99556-01

\$185.00

The T-99556-01 combines an IR NTC sensor element with a thermistor type probe. Now one unit can be used to verify core temps in products being cooked or cooled, and surface temps can be verified on products being received or stored!

T-710008 Rubber shock proof boot \$25.00

T-765032F calibration key \$32.00

Accuracy:

IR 14to572°F Probe -40to302°F

**HI765032F
Calibration Key**

**Now get both Infra-red,
AND a thermistor probe!**

T-99556-01/P package price \$195

Printing/Logging Thermometer

Ideal for any facility trying to implement a HACCP plan!

T-98801

\$345.00

T-98801 is a K type thermocouple with high resolution and extended temperature range with extensive logging capabilities. In addition to supplying the user with instant printouts of date, time, and temperature, it also provides datalogging capabilities that store data for transfer to a computer system for retrieval, and review. Logging capability, and ability to store date of last calibration make this the ideal tool for HACCP implementation. Backlit LCD and rugged carrying case. Probes not included
